

MC-10A & MC-11

Label Rewinders

Mini-CAT-10A

MC-11

The popular MINI-CAT Label Rewinders are the world's lowest-price Label Rewinders. They can rewind label rolls up to 4* -inches wide, up to 8-inches in diameter at speeds up to 10-ips (inches per second). They can also be used as Label Unwinders for smaller rolls up to 8-inches in diameter. There are thousands of MINI-CATS working perfectly in the field around the world.

The two MINI-CAT Models are identical to each other except for the Core Holder.

The MINI-CAT-10A (MC-10A) includes both a 3-inch diameter core holder and a "coreless rewind" feature to rewind directly on-shaft.

The MINI-CAT-11 (MC-11) has an Adjustable Core Holder precision engineered in Europe that adjusts instantly to accept any size core from 1-inch to 4-inches (25 to 102mm) in diameter. Coreless rewinding is also possible on the MC-11.

The MINI-CATS use LABELMATE's proprietary Constant Adjustable Torque™ ("CAT") technology to achieve impressive, reliable performance at an unprecedented low price.

A special MINI-CAT motor, offers trouble-free, bi-directional operation. A multi-position switch allows you to set the amount of rewind force. No mechanical or speed adjustments are required. Your MINI-CAT automatically adjusts to any printer speed up to 10-ips and even automatically allows label back-feeding if your printer requires it.

An inner label flange keeps the edge of the label web aligned as the labels are being rewound. An optional Adjustable Paper Guide (Model APG-1) mounts directly to the MINI-CAT base plate and guides the outer edge of the labels.

Rugged steel construction allows your MINI-CAT to be simply set in place near your label printer. Special anti-slip feet prevent the unit from moving. Put a LABELMATE MINI-CAT to work for you today and enjoy a new dimension in label rewinding & unwinding convenience and reliability.

MC-10A & MC-11 SPECIFICATIONS:

- Label Width: Up to 4.5-inches (114+ mm). Maximum Label Roll Weight: 8.5 lbs. (3.9 kg).
- Label Roll Diameter: Up to 8-inches (203+ mm).
- Core Diameter: MC-10A: 3-inch or coreless. MC-11: Use any diameter cardboard core from 1- to 4-inches (25 to 101mm).
- Speed: Up to 10-ips (25+ cm/sec). Switch adjustable rewind force. No speed adjustments are required. Start/Stop: Convenient ON-OFF switch. Direction: Bi-directional.
- Power Requirements: 120vac 60Hz. 20 va. UL / CSA Listed Power Supply. 220-240vac 50Hz also available.
- Size: HWD 9 x 6 x 11 in. (229 x 152 x 279 mm). Weight: 13 lbs. (5.9 kg).
- Optional: APG-1 Adjustable Paper Guide to guide the outer edge of the labels as they are being rewound.
